

## ● FEATURES

1. 2MP high-definition image sensor, with an effective resolution of 1920 \* 1080;
2. Audio acquisition is supported.
3. Standard UVC / UAC protocol, drive free, plug and play.
4. Support Windows / Android / Mac OS/Linux system.
5. H.264 and MJPEG image formats are supported, The maximum support is 2MP / 30fps image resolution.
6. It can be used for online teaching, live broadcast, video conference, Video chat, intelligent TV external devices.

## W21 SPECIFICATIONS

Image sensor	1/2.9 CMOS
Effective resolution	1920(H) × 1080(V)
Lens	3.6mm
View Angle	D84°H62°V51°
Effective Pixels	2.0 MegaPixels
Signal to noise ratio	> 50dB
Video stream	H.264: 1920*1080/1920*720/640*360 MJPEG: 1920*1080/1920*720/640*360 YUV: 640*360
Video frame rate	25FPS/30FPS
Electronic shutter	AUTO
USB interface	USB 2.0
Protocol	UVC/UAC
Mic	Omnidirectional mic
Video output	USB Video streaming
System compatibility	Windows 7 and above, Mac OS , Android5.0 and above ,Linux
Platform Compatibility	Skype, Youtube, Yahoo!@Messenger, MSN, Zoom, Windows Live@Messenger, Gmail, WeChat etc instant messaging applications.
Working voltage	DC5V/160mA ±6mA
Work environment	-20°C -- 60°C
certification	FCC、CE、Rohs
