

Cable: CATSE standard cable

Cable: CAT5E standard cable Test environment: Laboratory environment						
CCTV Video Transmission Performance Test						
Test Model	NX-N101P-HD + NX-N101AR-HD					
Distance	100m	200m	300m	400m	500m	600m
CVI720P						
Description	Video color normal, brightness normal, with no interference	Video color normal, brightness normal, with no interference	Video color normal, brightness normal, with no interference	Video color reduce slightly, brightness normal, with no interference	Video color reduce slightly, brightness normal, with no interference	Video color with middle -degree reduce, brightness with slight reduce, with no interference
Result	PASS	PASS	PASS	PASS	PASS	Fail
Distance	100m	200m	300m	400m	500m	600m
CVI1080P				Video salamadus sliebble		
Description	Video color normal, brightness normal, with no interference	Video color normal, brightness normal, with no interference	Video color normal, brightness normal, with no interference	Video color reduce slightly, brightness normal, with no interference	Video color with middle -degree reduce, brightness with slight reduce, with no interference	
Result	PASS	PASS	PASS	PASS	Fail	C00
Distance TVI720P	100m	200m	300m	400m	500m	600m
Description	Video color normal, brightness normal, with no interference	Video color normal, brightness normal, with no interference	Video color normal, brightness normal, with no interference	Video color reduce slightly, brightness normal, with no interference	Video color with severe reduce, brightness with slight reduce, with no interference	
Result	PASS	PASS	PASS	PASS	Fail	
Distance TVI1080P	100m	200m	300m	400m	500m	
Description	Video color normal, brightness normal, with no interference	Video color normal, brightness normal, with no interference	Video color reduce slightly, brightness normal, with no interference	Video color reduce slightly, brightness normal, with no interference	Video color with severe reduce,brightness with slight reduce, with no interference	
Result	PASS	PASS	PASS	PASS	Fail COO/700m	200
Distance	100m	200m	300m	400/500m	600/700m	800m
AHD720P						
Description	Video color normal, brightness normal, with no interference	Video color normal, brightness normal, with no interference	Video color normal, brightness normal, with no interference	Video color reduce slightly, brightness reduce slightly, with no interference	Video color reduce slightly, brightness reduce slightly, with no interference	Video color reduce, brightness reduce slightly, middle degree foggy, with no interference
Result	PASS	PASS	PASS	PASS	PASS	Fail
Distance	100m	200m	300m	400m	500m	600m
AHD1080P						
Description	Video color normal, brightness normal, with no interference	Video color normal, brightness normal, with no interference	Video color reduce slightly, brightness reduce slightly, with no interference	Video color reduce slightly, brightness reduce slightly, with no interference	Video color reduce slightly, brightness reduce slightly, with no interference	Video color reduce, brightness reduce slightly, middle degree foggy, with no interference
Result  Distance	PASS 100m	PASS 200m	PASS 300m	PASS 400m	PASS 500m	Fail 600m
CVBS						
Description	Video color normal, brightness normal, with no interference	Video color normal, brightness normal, with no interference	Video color reduce slightly, brightness reduce slightly, with no interference	Video color reduce slightly, brightness reduce slightly, with no interference	Video color middle degree reduce , brightness reduce slightly, with no interference	Video color with severe reduce, brightness with severe reduce, with no interference
Result	PASS	PASS	PASS	PASS	PASS	Fail
