

JM-LG05

Asset Tracker

LG05 is an asset tracker with internal 2,500mAh rechargeable battery specifically designed for goods tracking. Its inbuilt light sensor can detect illegal unpacking and then send alerts. Due to its ultra-thin size and selectable tracking modes, it can be easily placed in packing box and enables 24/7 condition real-time monitoring.

Real-time GPS+LBS Positioning

Unpacking/Geo-fence Alert

Internal 2,500mAh Rechargeable Battery

Ultra-thin Size

Multiple Tracking Modes

Low Battery Alert

Market Applications

Parameters	
Frequency band	GSM: 850/900/1800/1900 MHz
GPS chipset	MTK high sensitivity chip
Battery	Li-Polymer 2,500mAh/3.7V DC
Indicator	1 power indicator(Green), 1 status indicator(Red/Blue)
Charger	5V/1A
Operating temperature	-20°C to +70°C
Transmit protocol	TCP, SMS
Device weight	76g
Device dimension	110 x 61 x 8 mm
